New to gardening?

START HERE.... This spring, plant something you'll love to enjoy all summer long, like juicy, homegrown tomatoes perfect for fresh salads. It's a fun, rewarding activity that the whole family can get involved in!

1

Let's grow your first tomato together!

2

Plant in containers, growing bags, or in the ground, in a warm, sunny, sheltered spot.

3

Feed every 7-14 days once the first stem has pea-sized fruit (second stem if planting outside)

5 key Gardening Trends for 2026

SUSTAINABLE GARDENING, SMALL SPACES & ENCOURAGING WILDLIFE

1. Climate-Resilient Planting

Choose plants that can handle unpredictable weather: drought, heat, and heavy rain. Mediterranean species like lavender and salvia are on the rise for their beauty and reliability.

2. Water Wise

Water management is big in 2026. Water-butts help gardens hold rainwater, reducing waste and improving plant health.

3. Rise of the "Mini-Meadow"

The era of pristine, putting-green lawn is fading. Replace large sections of turf with clover, wildflowers, and native grasses. Mini Meadows require less mowing, zero fertilisers, and provide essential habitats for pollinators.

CREATE YOUR OWN MINI MEADOW

£6.99 EACH

4. Containers as Design Statements

Oversized pots are becoming focal points in gardens, perfect for flexible planting and creating instant style in patios or small spaces.

5. Wildlife Friendly Gardening

Nectar-rich borders, bird baths and insect habitats are growing in popularity, while natural predators can help keep pests like aphids away.

Sweet & Zesty Collection

Add a burst of fruity charm to any space with this delightful collection.
