### Pots of Perennials

Hardy plants that will bloom year after year.

### Senetti

Exuberant flowering annuals, they produce compact daisy-like flowers throughout winter and spring.

It's time to plant out your seed potatoes! March still carries a risk of frost. Make sure to protect them with fleece if they're outside.

## GROWING FROM SEEDS?

Have you grown your own produce or plants from seeds? It's easier than you think and incredibly satisfying. Take pride in watching the seed germinate into a seedling and then grow on to become a tasty vegetable or stunning flower.

Seed packets will tell you everything you need to know about when to plant, what conditions are required, and when to expect a harvest or flowers.

## NEED SOME FURTHER INSPIRATION ON WHAT SEEDS TO PLANT, WHEN AND HOW?
